WALIDNS17@GMAIL.COM

AL-QASSIM SAUDI ARABIA

OBJECTIVE

A passionate and dedicated software developer with extensive experience in backend development using Laravel and mobile application development with Flutter. Seeking a challenging role to utilize my skills in building efficient and scalable applications while continuously learning new technologies.

SKILLS & ABILITIES

- **Languages:** PHP, Dart, Java
- **Frameworks:** Laravel, Flutter , Android
- **Databases:** MySQL, SQLite
- **Version Control:** Git, GitHub
- **Tools:** Visual Studio Code, Postman, Xcode, Android Studio
- **Web Technologies:** HTML, CSS, JavaScript, RESTful APIs, JSON
- **Mobile Development:** Flutter, Dart , Java
- **Backend Development:** Laravel, API development, Authentication (JWT, OAuth), MVC architecture

EXPERIENCE

2019 – Present

Freelancer Mobile Application Developer
Freelancer | Remote

Android Developer (2019 – 2021)

- Developed and maintained Android applications using Java and Kotlin, delivering high-quality mobile solutions for various clients.
- Worked with REST APIs for backend communication, implementing features such as user authentication, database integration, and data synchronization.
- Optimized app performance and ensured cross-device compatibility by conducting thorough testing and debugging.
- Collaborated with clients to gather requirements and create custom features based on business needs.
- Flutter Developer (2022 – Present)

- Transitioned to Flutter development, creating cross-platform applications for both Android and iOS using Dart and Flutter framework.

- Built and deployed multiple mobile apps across various industries, focusing on user authentication, real-time data updates, and push notifications.

- Integrated third-party APIs and services such as payment gateways, social media logins, and analytics.

- Implemented state management solutions like Provider, Riverpod, and GetX to manage application state efficiently and improve app performance.

- Continued to provide maintenance and updates for both Android and Flutter-based applications, ensuring long-term client satisfaction and app stability.

October 2021 – November 2023   **Android Application Developer**
Faster, Riyadh Saudi Arabia

Developed and maintained Android applications tailored for clients, delivery agents, and stores, ensuring smooth and efficient communication between all parties. Worked closely with cross-functional teams to design features that enhanced user experience for customers, provided easy-to-use tools for delivery agents, and integrated store management functionalities. Focused on optimizing performance, troubleshooting issues, and implementing new features based on user feedback. The applications contributed to improving workflow, customer satisfaction, and operational efficiency.

December 2023 – Present   **Mobile Application Developer**
DSB | Full-time , Al-Qassim Saudi Arabia

- Developed mobile applications using Flutter for both Android and iOS platforms, ensuring smooth user experiences across devices.

- Collaborated with cross-functional teams to gather requirements and deliver scalable solutions tailored to business needs.

- Integrated backend APIs to enable real-time data synchronization, payment processing, and user authentication.

- Optimized mobile app performance, ensuring low latency and fast loading times for better user engagement.

- Provided ongoing maintenance and support for existing applications, including bug fixes and feature updates.

EDUCATION

September 2017 – March 2020   **Senior Technician: Software Developer**
Algerian National Institute, Algeria

- Focused on software development, including programming languages, database management, and application design.

- Completed hands-on projects in both backend and frontend technologies, preparing for professional roles in software development.

COMMUNICATION

- Excellent verbal and written communication skills in both Arabic.
- Experience in collaborating with remote teams and clients, ensuring clear understanding of project requirements and progress.
- Ability to present technical information in a clear and concise manner to both technical and non-technical stakeholders.

LEADERSHIP

- Led several mobile application projects, managing timelines, task delegation, and team coordination.
- Provided mentorship and guidance to junior developers, fostering a collaborative and growth-oriented environment.
- Managed client relationships, ensuring expectations were met and feedback was integrated into project development.

LANGUAGES

- English: Junior (Basic conversational and technical communication)
- Arabic: Native (Fluent in both verbal and written communication)

PERSONAL PROJECTS

1. **Graduation Project: Android Tours App for University Students**
   Technologies: Java, Android SDK

   - Developed an Android application to manage and guide university students through various tours.
   - Integrated features like event scheduling, location tracking, and interactive maps.
   - Focused on user-friendly interfaces and efficient performance to enhance user experience.

2. **Faster Company Application for Clients, Drivers, and Restaurants**
   Technologies: Java, Android SDK

   - Developed and maintained an Android application to facilitate communication between clients, delivery agents, and restaurants.
   - Implemented features like real-time tracking, order management, and push notifications.
   - Worked closely with cross-functional teams to optimize app performance and enhance user satisfaction.

3. **Project Management App for Amanat Al-Qassim (Saudi Arabia)**
   Technologies: Flutter, Dart

   - Created a mobile application to manage and track project progress for the Amanat Al-Qassim in Saudi Arabia.

   - Focused on real-time data updates, task management, and reporting features for effective project monitoring.

   - Implemented a user-friendly interface with responsive design to ensure accessibility for all users.
